A small PDF/UA-2 demonstration

Contents

1 Introduction 1
2 Method 1

1 Introduction

This document is small on purpose. It has one of each thing that a tagged PDF has to describe carefully, so that the tags can be read by eye.[1]

A link inside the document, to Section 2, and one outside it, to the PDF Association.

2 Method

See Figure 1 for a figure and Table 1 for a table.

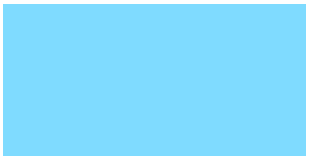

Figure 1: A figure with an alternative description.

Quantity	Value	Unit
Length	4	cm
Height	2	cm

Table 1: A table with a header row.

$$a^2 + b^2 = c^2$$

> A block quote with some *emphasis* in it.

1. A first numbered item
2. A second numbered item

[1] A footnote. Its number in the text and the note itself have to point at each other.
